## Radisson Club Floors Revealed

The Radisson Winnipeg Skyview is a hotel going haute with dramatic facility transformations.

Trendsetting eatery, 12 Resto Bar, now abuzz with wining and dining, the Radisson wows Winnipeg by unveiling its next reinvention: Radisson Club Floors. Perched on the 27th, 28th, and 29th floors, these exclusive penthouse-style levels allow the Radisson to raise the bar for accommodation across the country.

Tailored to the business executive, these secured floors boast spacious guest rooms and one-bedroom suites, meeting room, private lounge, and a stunning view of the city.

"We are at the forefront of what business people need," Kim Ewchuk, Director of Sales & Marketing, affirms.

In keeping with the Radisson's President's Award-winning service, these renovations shine because the Club Floors are accented with luxurious materials and personal touches. Leather furniture, crisp white linens, flat screen TVs, CD clock/radios, and stainless steel, glass, and dark wood detailing are... let me catch my breath ... only the beginning.

Bathrooms are redesigned in granite, fine tile and glassed-in showers, accessorized with enhanced toiletries, including a plush bathrobe. Furthermore, the exclusive Radisson Sleep Number Beds invite indulgence in peaceful slumber by allowing guests to select exact comfort settings, from feather-soft to extra-firm.

Moving to the one-bedroom suites, you'll find an expanded work area, as well as fridge and microwave. Guests will also enjoy complimentary deluxe continental breakfast, all day non-alcoholic refreshments, and pre-dinner canapés in the top-floor Radisson Club Lounge. This private lounge is perfect for casual meetings, unwinding with a cocktail, or watching the game. For peace of mind, a service professional is put on standby to assist with any special arrangements.

On the road with someone special? The Romance Suite's Jacuzzi and fireplace will be sure to please.

"We are all about choice," Ewchuk explains, emphasizing that the Radisson offers all the comforts of home.

The vibrant partnership of Tribal Councils Investment Group of Manitoba and Paletta Group made these renovations possible. Paired with acclaimed Number Ten Architectural Group, the new elegant face of the Radisson adds dynamic energy to the downtown's revitalization. A movement that includes the highly anticipated Manitoba Hydro H.Q., Human Rights Museum, as well as the action-packed MTS Centre, the hotel looks to join Winnipeg's evolution into a refined urban centre.

But Club Floors and 12 Resto Bar are just the tip of the iceberg for this soon-to-be-flagship Radisson. Work is underway to fully redesign its regular suites, create a new pool, sauna and lavish spa, revamp its fitness centre, and revitalize the lobby and Portage-facing façade.

Top that!
